

RESIST CUSTOM

Hardened RESIST CUSTOM protective cases, made in France, are specifically designed to withstand heavy-duty use in the field. They can withstand 1000 drops from a height of 1.20m, that is 30 times higher than the requirements of military standard MIL-STD 810G.

To adjust your RESIST case to your specific needs in terms of ergonomics, portability, safety... many options are available for a 100% customized case. The RESIST cases are also adaptable to any brand device.

RUGGED PROTECTIVE CASE FOR TABLET

PATENTED INNOVATION

PERIMETRIC BUMPER

Double integral bumpers on the 4 sides of the device absorb lateral and corner shocks both from above and below

Shock cushioning

EXCLUSIVE ANTI-SHOCK COMPLEX

Rigid upper and lower sections of the case lined with TFP 4.0*

Shock cushioning

Shock wave absorption

PATENTED INNOVATION

4 SHOCK WAVE ABSORBERS

These TFP 4.0* pads are adjustable in height and density to cushion and absorb shocks and vibrations proportionally to their intensity. Their specific shape is designed to facilitate dispersion of the impact energy

Shock cushioning

Shock wave absorption

Impact energy dispersion

+ ***TFP 4.0** **MOBILIS[®] exclusivity**

The new generation of MOBILIS[®] exclusive anti-shock material

Specifically made to cushion shocks even the most violent, it instantly absorbs up to 90% of impact energy, then disperses it. Thus, no shock wave is transmitted to your device. This new TFP 4.0 generation is reinforced with more microcells, to be more efficient in repeated impact absorption.
